Wifi Touch Switch

Specifications

Color : White

Type : 1,2,3 channels

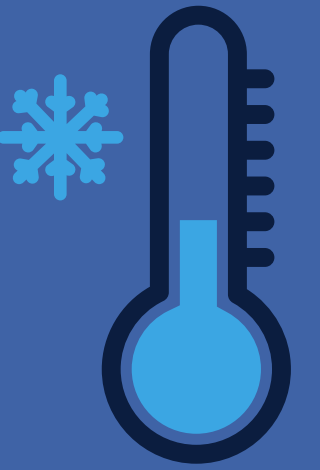

Power supply : AC 90~250V

Load power : 1100W / Channel

Control : Smartphone or On/Off Switch

AirCon Controller

Monitor Real-time Status And Indoor Climate

View device's status, the real-time temperature and humidity instantly from App.

Specification:

Working Voltage: 90-250V

Current: 10A/15A

Power: 2200W/3500W

Working frequency: 50/60Hz

Working Temperature: -20 to 100°C

Control : Smartphone or Manual Switch

Specifications

Distance Detection: 9 m

WiFi distance : 100 m

Angle Horizontal (degree): 360

Angle Vertical (degree) : 96

Video Resolution : 1080P

Working voltage : 5 V / 1A
